INDEPENDENT AUDITOR'S REPORT

To the Advisory Board of the Cape Ann Transportation Authority

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Cape Ann Transportation Authority (the Authority), a component unit of the Commonwealth of Massachusetts, as of and for the year ended June 30, 2010, which collectively comprise the Authority's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Authority's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Authority as of June 30, 2010 and the respective changes in financial position and cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated September 9, 2010, on our consideration of the Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information on pages 3 through 7 and 19 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquires of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquires, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Authority's basic financial statements. The supplementary information included on pages 20 through 22 is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Roland P. Lambalot, PC

Methuen, Massachusetts September 9, 2010

Required Supplementary Information

Management's Discussion and Analysis

The following is offered to the readers of the Cape Ann Transportation Authority's financial statements. It is a narrative overview and analysis of the financial performance of the Cape Ann Transportation Authority (the Authority) during the fiscal year ended June 30, 2010. Please read this discussion and analysis in conjunction with the Authority's financial statements which begin on page 8.

This financial report is designed to provide a general overview of the Authority's finances for all those with an interest in the Authority's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to Paul F. Talbot, Administrator, Cape Ann Transportation Authority, 3 Pond Road, Gloucester, Massachusetts, 01930.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Authority's basic financial statements. The Authority is a special-purpose government engaged in only business type activities. As such, its financial statements consist of only those financial statements required for proprietary funds and the related notes.

Revenue is recorded when earned and expenses are recorded when incurred. The financial statements include a statement of net assets, a statement of revenues, expenses and changes in net assets, and a statement of cash flows. These are followed by the notes to the financial statements. In addition to the financial statements, this report also contains supplemental schedules pertaining to the net cost of service of the Authority.

The statement of net assets presents information on the assets and liabilities, with the difference between the two reported as net assets. Over time, increases and decreases in net assets may serve as a useful indicator of whether the financial position of the Authority is improving or deteriorating.

The statement of revenues, expenses and changes in net assets reports the operating revenues and expenses and nonoperating revenues and expenses of the Authority for the fiscal year with the difference – the increase or decrease in net assets – being combined with any capital grants to determine the net change in assets for the fiscal year. That change combined with the previous year's end net asset total reconciles to the net asset total at the end of this fiscal year.

The statement of cash flows reports cash and investment activities for the fiscal year resulting from operating activities, capital and related activities, noncapital and related financing activities and investing activities. The net result of these activities added to the beginning of the year cash and investment balance reconciles to the cash and investment balance of the current fiscal year.

The notes to the financial statements provide additional information that is essential to the understanding of the data provided in the basic financial statements and can be found on pages 11 through 18 of the report.

Management's Discussion and Analysis

Financial Highlights

The assets of the Authority exceed its liabilities at the close of the most recent fiscal year by \$6,362,160. The Authorities total net assets decreased by \$313,644 mainly due to depreciation of capital assets. The Authority's expenses, except for depreciation and amortization, are fully funded annually through a combination of federal, state, and local assistance.

The Authority's net assets consist of its investment in capital assets (e.g., land, buildings, vehicles, and other equipment). The Authority uses these capital assets to provide fixed route and paratransit services to individuals within its service area; consequently, these net assets are not available for future spending. Although the Authority's investment in capital assets is reported as net of related debt, it should be noted that the resources needed to repay any related debt outstanding must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Key factors in the changes in revenues and expenses are as follows:

- Passenger fares decreased \$13,206, or 6.7%, due to a decrease in ridership during the year.
- Total operating expenses, excluding depreciation, increased by \$544,870, or 5.77%, due to demand for brokerage services.
- Revenues from assessments from member municipalities increased 2.5% as allowed by law.
- State operating assistance was level funded; federal capital assistance and operating assistance decreased.

Capital Assets and Debt

The Authority's capital assets as of June 30, 2010 amounted to \$6,344,377 (net of accumulated depreciation). This investment in capital assets includes land, buildings and improvements, transportation equipment, office, and other equipment.

Capital asset additions during the fiscal include the following:

Building Improvements	\$ 5	165,331
Transit Equipment		41,332
	\$ 5	206,663

The Authority acquires its capital assets under federal capital grants and state matching funds.

At year-end, the Authority had \$2,800,000 of notes outstanding, an increase of \$100,000 from the prior year.

(A Component Unit of the Commonwealth of Massachusetts)

Required Supplementary Information

Management's Discussion and Analysis

Economic Factors and Next Year's Budgets

Funding the Authority's net cost of service consists of non-capital expenses less all non-capital revenues, except member municipality assessments and contract assistance from the Commonwealth of Massachusetts. The net cost of service is funded through assessments to member municipalities, which may increase by no more than 2.5% annually plus the members' share of any new services. Local assessments can make up to 50% of the Authority's net cost of service, but must subsidize at least 25% of the net cost of service. The remaining net cost of service, after local assessments, is funded by the Commonwealth. The Commonwealth will fund a minimum of 50% and a maximum of 75% of the Authority's net cost service. This portion of the net cost of service is funded a year in arrears by the Commonwealth (the Authority's fiscal 2010 assistance will be included in the State's fiscal 2011 budget).

CATA applied for and received a CMAQ Grant in the amount of \$7,000 to fund a shuttle service from Stage Fort Park, a 500 car parking lot, to various points of interest in downtown Gloucester and Good Harbor Beach. The shuttle service began on June 19, 2010 and operates on weekends and holidays through September 6, 2010.

CATA also applied for and received a New Freedom Grant in the Amount of \$58,885 to provide transportation services from the CATA area to the Addison Gilbert Hospital, Beverly Hospital, Mass General Hospital North and the North Shore Dialysis Center. The grant will be used to implement The Cape Ann Transportation Operating Company Inc. (CATOC's) Health Link Shuttle that will provide a new public transportation service for cancer, dialysis and other medical patients beyond what is required. CATOC will coordinate this service with Senior Care, Inc. and the Gloucester and Rockport Councils on Aging and with the designated hospitals and dialysis center. The Health Link Shuttle will bridge the gap for much needed services not provided by CATOC's demand response and ADA Transportation Services.

CATA applied for and received a third grant in the amount of \$76,500 through the Job Access and Reverse Commute Program to install and implement an Interactive Voice Response System. This service, which will be available in English and Spanish, and available 24 hours a day - 7 days per week will enable Gloucester and Rockport clients to perform the following functions via the phone: 1- bus schedule information as well as scheduled time of the arrival by speaking or entering bus-stop names via touch tone; 2- provide more accurate and real information to feeder Dial-a-Ride bus systems via web/phone; 3- call ahead service for existing clients, checking on no-shows; 4- trip confirm/cancellation service for existing clients; 5- trip review for clients who use CATA's Medical Services (under the Human Services Transportation) 6- Bus schedule information as well as scheduled time of arrival by requesting via a text messaging on hand held telephones. While this project may not directly increase employment related (Job Access or Reverse Commute) it will make it easier for low income as well as bi-lingual people to access inexpensive transportation to work.

The Cape Ann Transportation Operation Company, Inc. was successful in negotiating a three- year collective bargaining agreement with Teamsters Local 42. The contract was ratified by a notable vote of 23 in favor and 2 against. The wage increase was offset by a union concession on dental and medical premiums. Any future increase in medical premiums will be split 70% company & 30% employee from the current 90% - 10% split. Effective September 1, 2010, dental coverage will be 70% company and 30% employee compared to the current situation where the operating company pays 100% of the premium.

Required Supplementary Information

Management's Discussion and Analysis

In the spring of 2010, CATA received delivery of 3 sixteen-passenger vans. The total cost of the vans was \$182,941 and funded by the Federal Government in the amount of \$146,352 (Section 5307), \$35,600 in RTA CAP Funds from Mass DOT and the remaining balance of \$989 from CATA's operating funds. We will be submitting an application to Mass DOT for three more sixteen-passenger vans through the State's Mobility Assistance Program (MAP).

Congressman Tierney was successful in obtaining a federal earmark in the amount of \$500,000 for the purchase of a bus and fare-boxes. CATA will allocate \$224,000 of the earmark towards the purchase of 20 fare-boxes costing \$280,000. The required 20% match in the amount of \$56,000 will be provided through the State RTA CAP. The fare-boxes will be purchased through a consortium of Regional Transit Authorities.

The Authority will receive delivery of two 30' Gillig Buses on or before September 1, 2010. The buses were purchased with ARRA Funds. The Authority also has plans to purchase a 3rd bus using a federal earmark of \$276,000 and \$69,000 in local funds through the toll credit mechanism.

The State Department of Transportation (DOT) has approved the release of \$900,000 allocated for CATA in the State's 2008 Transportation Bond Bill. The approval by DOT has been forwarded to Administration and Finance for their review and approval. These funds will be used for roof replacement, installation of solar panels, purchase of an emergency generator and other infrastructure improvements to the building.

Notes to Financial Statements

June 30, 2010

Note 1. Nature of the Organization and Summary of Significant Accounting Policies

The financial statements of the Cape Ann Transportation Authority (the Authority) have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to government units. The Government Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The Authority applies Financial Accounting Standards Board pronouncements and Accounting Principles Board opinions issued on or before November 30, 1989, unless those pronouncements conflict with or contradict GASB pronouncements, in which case, GASB prevails, and all of the GASB pronouncements issued subsequently. The more significant of the Authority's accounting policies are described below:

A. Reporting Entity

The Authority, a political subdivision of the Commonwealth of Massachusetts (the Commonwealth), was established in accordance with Chapter 161B of the Massachusetts General Laws to provide a public transit system for the territory comprised of the City of Gloucester and the Towns of Rockport, Ipswich and Essex. In accordance with requirements of Statement No. 14, *The Financial Reporting Entity, of the Governmental Accounting Standards Board* (GASB), the financial statements must present the Authority (the primary government) and its component units. Pursuant to this criterion, no component units were identified for inclusion in the accompanying financial statements. Additionally, the accompanying financial statements are incorporated into the financial statements of the Commonwealth as the Authority is a component unit of the Commonwealth.

B. Basis of Accounting

The operations of the Authority are accounted for as an enterprise fund on an accrual basis in order to recognize the flow of economic resources. Under this basis, revenues are recognized in the period in which they are earned, expenses are recognized in the period in which they are incurred, depreciation of assets is recognized, and all assets and liabilities associated with the operation of the Authority are included in the Statements of Net Assets. The principal revenues of the Authority are fare box revenues received from patrons. The Authority also recognizes as operating revenue the rental fees received from vendors from operating leases of Authority property. Operating expenses for the Authority include the costs of operating mass transit and demand responsive services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

C. Budget

The Authority must establish an operating budget each year so that the amount will equal the sum of (a) the aggregate of all annual appropriations for expenditures and transfers, less (b) the aggregate of all revenue and transfers projected to be received by the Authority, including available surplus funds. The budget for all operations of the Authority is prepared by the Administrator and is acted upon by the Advisory Board. The budget is prepared on the accrual basis. Depreciation is not recognized as an expense, but capital outlays are recognized as expenses for budgetary control purposes. These expenses are reclassified for the purpose of preparing financial reports in accordance with GAAP.

(A Component Unit of the Commonwealth of Massachusetts)

Notes to Financial Statements

June 30, 2010

D. Cash and Cash Equivalents

Cash includes amounts in demand deposits. Cash equivalents include all highly liquid deposits with an original maturity of three months or less when purchased. These deposits are fully collateralized or covered by federal deposit insurance except as stated in Note 2. The carrying amount of the cash equivalents is fair value. For purposes of the statement of cash flows, the Authority considers all highly liquid investments purchased with a maturity of three months or less to be cash equivalents.

E. Compensated Absences

Employees of the Authority are entitled to paid vacations, paid sick days and personal days off, depending on job classification, length of service and other factors. The Authority's policy is to recognize the costs of compensated absences when actually accrued, subject to accumulation limitations in accordance with personnel policies.

F. Capital Assets

Capital assets are stated at cost. Cost includes not only purchase price or construction cost, but also ancillary charges necessary to place the asset in condition for use. Capital assets are defined as assets with initial, individual costs exceeding \$5,000.

G. Depreciation

The Authority provides for depreciation using the straight-line method. Depreciation is intended to distribute the cost of depreciable properties over the following estimated average useful lives:

Buildings	20-40 years
Vehicles	5-12 years
Passenger Shelters	5 years
Furniture, fixtures and equipment	5-7 years

A full month's depreciation is taken in the month an asset is placed in service. When property and equipment are disposed, depreciation is removed from the respective accounts, and the resulting gain or loss, if any, is recorded in operations.

H. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

I. Concentration of Credit Risk

Financial instruments which potentially subject the Authority to concentrations of credit risk consist principally of investments, cash equivalents and grants receivable. The Authority's cash equivalents were with various credit-worthy financial institutions; investments consisted of a collateralized repurchase agreement and grants receivable were due from Federal, State and local assessments. The Authority considers the credit risk associated with financial instruments to be minimal.

(A Component Unit of the Commonwealth of Massachusetts)

Notes to Financial Statements

June 30, 2010

J. New Accounting Pronouncements

In fiscal 2010 the Authority adopted the provisions of GASB Statement No. 51, Accounting and Financial reporting for Intangible Assets, No. 53, Accounting and Financial Reporting for Derivative Instruments, No. 57, OPEB Measurements by Agent Employers and Agent Multiple Employer Plans, and No. 58, Accounting and Financial Reporting for Chapter 9 Bankruptcies. The implementation of these standards did not have a material effect on the Authority's financial statements. The GASB has issued Statement No. 54, Fund Balance Reporting and Governmental Fund-Type Definitions and No. 59, Financial Statements Omnibus, which requires adopted these statements; the implication on the fiscal practices and financial reports of the Authority is being evaluated.

Note 2. Cash and Cash Investments

State and local statutes place certain limitations on the nature of deposits and investments available to the Authority. Deposits (including demand deposits, term deposits and certificates of deposit) in any one financial institution may not exceed certain levels without collateralization by the financial institutions involved. Investments can also be made in securities issued by or unconditionally guaranteed by the U.S. Government or Agencies that have a maturity of less than one year from the date of purchase, repurchase agreements guaranteed by such securities with maturity dates of no more than 90 days from the date of purchase and units in the Massachusetts Municipal Depository Trust ("MMDT"). Certain cash and investments are segregated from operating cash due to certain internal or external restrictions. These funds consist of those required by state allowed revenues.

Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The government does not have a deposit policy for custodial risk. As of June 30, 2010 \$-0-of the government's bank balance of \$236,100 was exposed to custodial credit risk as uninsured and uncollateralized.

Note 3. Grants

Under various sections of the Safe, Accountable, Flexible, Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU), the United States Department of Transportation approves capital grants to fund up to 80% of the Authority's capital improvement projects. The remaining portion of approximately 20% will be financed through the Commonwealth's Executive Office of Transportation. Capital grants of the Authority are reported as revenue rather than contributed capital as required by GASB Statement No. 33, *Accounting and Financial Reporting for Nonexchange Transactions*. In addition the Federal government may fund up to 80% of the Authority's preventative maintenance and complementary ADA services costs, as defined.

(A Component Unit of the Commonwealth of Massachusetts)

Notes to Financial Statements

June 30, 2010

The Authority has a contract with the Commonwealth for operating assistance as provided for in the enabling legislation under which the Commonwealth will pay the Authority a portion of its net cost of service. The amount of this contract assistance for fiscal year 2010 was \$1,019,708. The state operating contract assistance receivable, in the accompanying Statement of Net Assets, is inclusive of \$481,322 related to funds due from the Commonwealth; this amount has not been funded. Unfunded deficits are generally funded via Commonwealth supplemental budgets and the Authority will pursue this avenue. These unfunded amounts consist of two years of payments against the amount due the Commonwealth (Note 6). These funds were withheld by the state from contract assistance payments. There are an additional \$264,745 in costs that have been accumulated that have not been funded by available resources.

Note 4. Capital Assets

The following is a summary of changes in Capital Assets at June 30, 2010:

	Beginning			Ending
	balance	Additions	Disposals	balance
Capital assets not being depreciated:				
Land	\$ 850,000			850,000
Total capital assets not being depreciated	850,000			850,000
Other capital assets:				
Buildings and improvements	5,697,913	23,723	-	5,721,636

Electronic equipment	208,685	-	-	208,685
Service vehicles	133,928	-	-	133,928
Furniture & fixtures	637,851			637,851
Total other capital assets at historical cost	11,855,506	206,664		12,062,170
Less accumulated depreciation for:				
Buildings and improvements	964,703	155,077	-	1,119,780
Transit equipment	4,142,027	297,419	-	4,439,446
Service equipment	130,717	11,924	-	142,641
Electronic equipment	181,800	6,416	-	188,216
Service vehicles	133,928	-	-	133,928
Furniture & fixtures	494,311	49,471		543,782
Total accumulated depreciation	6,047,486	520,307		6,567,793
Other capital assets, net	5,808,020	(313,643)	-	5,494,377
Total capital assets, net	\$ 6,658,020	(313,643)		6,344,377

(A Component Unit of the Commonwealth of Massachusetts)

Notes to Financial Statements

June 30, 2010

Note 5. Revenue Anticipation Notes

The Authority is subsidized by the Commonwealth for its annual "Net Cost of Service" as defined in the legislation. These subsidies are funded subsequent to the year in which the costs are incurred. Therefore, the Authority issues revenue anticipation notes to cover cash flow deficiencies until funding is received.

During the year ended June 30, 2010, the following changes occurred in the Authority's revenue anticipation notes (RANS):

Beginning balance	\$ 2,700,000
New notes issued	2,800,000
Notes retired	(2,700,000)
Ending balance	\$ 2,800,000

The \$2,800,000 of RANS outstanding were issued on July 11, 2009, carried an interest rate of 1.50% and were due July 9, 2010. The Authority refinanced its Revenue Anticipation Notes borrowing \$3,000,000 at an interest rate 1.50% with a due date of July 8, 2011. The Authority uses the proceeds of these notes to fund its mass transit operations.

Note 6. Note Payable - Bank

The Authority entered into a loan agreement with Sovereign Bank for a revolving line of credit in the maximum amount of \$500,000 effective November 3, 2004. This loan is secured by the real estate owned by the Authority. The note contains a variable interest rate and is due on demand. Additional security consists of the assignment of rents received for office space that is leased out. The loan was modified in September of 2008 and became a term loan with monthly payments of \$5,154 due through September of 2013. The note carries a fixed rate of 6.63%. The scheduled maturity of the loan is as follows:

2012	\$ 55,538
2013	54,615
2014	58,366
2015	20,513

(A Component Unit of the Commonwealth of Massachusetts)

Notes to Financial Statements

June 30, 2010

Note 7. Long-Term Debt

In December of 2000 the Authority entered into an agreement with the Commonwealth of Massachusetts to reimburse the state \$960,000 for amounts that were set aside in a reserve for the purchase and rehabilitation of real estate subsequently acquired. These transfers were deemed improper by the state. The agreement calls for the Authority to repay \$192,000 for five successive years beginning in 2005 by way of reductions in current state contract assistance. At the time of the agreement the Authority was providing transit brokerage services to various state agencies whereby excess revenues were realized from which the original reserves were created. During fiscal 2004 the Authority lost major contracts under a bid process that reduced the Authority's gross revenue by \$16,014,071. The remaining brokerage contracts were adjusted to effectively eliminate the possibility of significant excess revenues from which the state would be paid back. The Authority has not reduced its current year contract assistance in the audit as excess revenues needed to repay the state were not realized. There is no provision for acceleration of amounts due under the agreement. The Authority is attempting to get the State to discharge this liability and refund all amounts referenced in Note 3. The State did not reduce contract assistance for fiscal year 2007 through 2009. The balance due is \$384,000 at June 30, 2010.

Note 8. Deferred Compensation Plan

The Authority administers a deferred compensation plan through which employees can participate in a voluntary, payroll-deducted retirement program created in accordance with Internal Revenue Code Section 457. The Authority makes contributions up to $7\frac{1}{2}\%$ of an individual's eligible compensation. The deferred compensation is not available to employees until termination, retirement, death approved or unforeseeable emergency. All amounts of compensation deferred, property purchased with those amounts, and all income attributable to those amounts are held in trust for the exclusive benefit of participants and their beneficiaries. The Authority contributed \$35,947 during the fiscal year.

Note 9. Risk Management

In conjunction with its normal operations, the Authority is exposed to various risks related to the damage or destruction of its assets from both natural and man-made occurrences, tort/liability claims, errors and omissions claims and professional liability claims. As a result of these exposures, the Authority has developed a comprehensive risk management program. There have been no significant reductions in coverage from the prior year and settlements have not exceeded insurance coverage for the current year or in any other year.

GASB Statement No. 10, Accounting and Financial Reporting for Risk Financing and Related Insurance Issues, requires that liabilities for self-insured claims be reported if it is probable that a loss has been incurred and the amount can be reasonably estimated. These losses include an estimate of claims that have been incurred but not reported. The estimated liability for all self-insured losses incurred but not reported is not material at June 30, 2010.

Health insurance benefits for employees are provided through a health maintenance organization. The Authority's contributes 75% of the premium cost for employees. In 2010, expenditures for the Authority's share of health insurance contributions were \$34,169. The Authority purchases insurance for worker's compensation for its employees.

(A Component Unit of the Commonwealth of Massachusetts)

Notes to Financial Statements

June 30, 2009

Note 10. Disaggregation of Receivable and Payable Balances

Receivables are primarily comprised of current intergovernmental receivables representing 94.5% of the balance at year end. The remaining current receivables are comprised of amounts due from vendors and auxiliary revenue sources.

Payable balances are comprised of 96.4% current payables to contractors and vendors with the remaining balance representing deferred employee liabilities.

Note 11. Commitments and Contingent Liabilities

The Authority had entered into a five year agreement for management and preventative maintenance services effective July 1, 2003. Annual fees started at \$106,656. The management agreement was put out to bid. The new agreement, awarded June 27, 2008, is for a one year term ending June 30, 2009 with four additional one-year options exercisable at the Authority's sole discretion at a fixed management fee of \$115,000.

The Authority participates in a number of federally assisted grant programs. These programs are subject to financial and compliance audits by the grantors or their representatives. In the opinion of the Authority's management, liabilities resulting from such disallowed expenditures, if any, will not be material to the accompanying financial statements.

The records of the Authority for the period of October 1, 2002 through September 30, 2003 pertaining to brokerage services provided were reviewed by the state's Office of Health and Human Services. The sample resulted in the discovery of two claims which lacked supporting documentation. The findings were extrapolated and the agency determined that the Authority was overpaid by \$115,590. CATA has filed an appeal in this matter disputing the statistical validity of the sample size and the methodology used in the extrapolation. No reserve has been set up to recognize any payback. Management feels that the resolution will be favorable to the Authority and that any possible reversion would be immaterial to the financial statements.

Note 12. Net Assets – Investments in Capital Assets

This balance is represented by the amount invested in capital assets net of related debt. It is comprised of the following:

Cost of Capital Assets Acquired	\$ 12,912,170
Less: Accumulated Depreciation	6,567,793
Less: Outstanding Debt Related to Capital Assets	 189,032
Investments in Capital Assets	\$ 6,155,345

(A Component Unit of the Commonwealth of Massachusetts)

Notes to Financial Statements

June 30, 2010

Note 13. Net Assets – Restricted

In Accordance with Massachusetts General Laws Chapter 161 Section 6(q) the Authority has established a reserve for extraordinary expenses. Prior approval from state officials is required before any expenditure can be made.

Note 14. Transit Service

The operation of the Authority's fixed route service and maintenance of the Authority's transportation property are performed by Cape Ann Transportation Operating Company (CATOC) under the terms of an agreement whereby CATOC operates mass transit along such routes and according to such a schedule as defined by the Authority. In return, the Authority agrees to pay CATOC a management fee and to reimburse CATOC for all costs and expenses which are reasonable and necessary for the efficient operation of the service. CATOC also operates bus and van services for the elderly, handicapped, and low-income persons.

Note 15. Human Service Transportation

The Authority has entered into contracts with the State Departments of Medical Assistance, Mental Retardation and Public Health to provide transportation services to their respective clients. The Authority engages private taxi and van companies for these services. All agreements are subject to the appropriation and allocation of the funding necessary to discharge the payment obligations of the Commonwealth accruing that fiscal year.

Note 16. Subsequent Events

Subsequent events have been evaluated through September 9, 2010, the date on which the financial statements were available to be issued.

Note 17. Related Party

The Authority has entered in an agreement with the City of Gloucester to lease 10,652 square feet of office space. The five year lease is effective January 1, 2006 and calls for initial monthly payments of \$6,000 plus a pro-rata share of heating costs. The City pays its own utilities. The City had a month by month rental until it bid on the property. Rental income for the year ended June 30, 2010 was \$80,914. The Authority advertised the rental of this space and sent out requests for proposals to public and private entities. The City of Gloucester was the only respondent. Its reply was considered to be arms length based on the location of the property and the current use by the owner.

June 30, 2010

Notes:

(a) Transit deficits for fixed route transportation are apportioned to the communities based on the mileage of those routes that pass through the community. The demand responsive is allocate by contract.

(b) The general expense of the Authority are allocated based on the percentage of which each funding participant's transit deficit bears to the total combined transit deficit of all participants exclusive of special projects.

ROLAND P. LAMBALOT, P.C. CERTIFIED PUBLIC ACCOUNTANTS 184 PLEASANT VALLEY ST. METHUEN, MA 01844 TELEPHONE (978) 691-0050 FAX (978) 691-0066

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Advisory Board Cape Ann Transportation Authority

We have audited the financial statements of the governmental activities, the business-type activities, and the aggregate remaining information of Cape Ann Transportation Authority (the Authority) as of and for the year ended June 30, 2010, which collectively comprise the Authority's basic financial statements and have issued our report thereon dated September 9, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Authority's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Authority's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of the advisory board, management and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
